BIOMETRIKA

BIOMETRIKA

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

VOLUME 58

1971

Editor
D. R. COX

Assistant Editor
A. M. Herzberg

Business Manager
D. V. Lindley

Editor of Auxiliary Publications
E. S. Pearson

Associate Editors
P. Armitage
M. S. Bartlett
F. Downton
M. J. R. Healy
J. F. C. Kingman
M. Stone
B. L. Welch

ISSUED BY

THE BIOMETRIKA OFFICE, UNIVERSITY COLLEGE LONDON

Printed in Great Britain at the University Printing House, Cambridge

Contents of Volume 58

PAGE

ABRAHAMSE, A. P. J. and LOUTER, A. S. On a new test for autocorrelation in least squares regression 53

AHSANULLAH, M. On the estimation of means in a bivariate normal distribution with equal marginal variances 230

ALI, M. M. (*See* TIAO, G. C.)

ALTHAM, P. M. E. Exact Bayesian analysis of an intraclass 2×2 table . . 679

ALTHAM, P. M. E. The analysis of matched proportions 561

ANDREWS, D. F. A note on the selection of data transformations 249

ANDREWS, D. F. Sequentially designed experiments for screening out bad models with F tests 427

ANDREWS, D. F. Significance tests based on residuals 139

BACON, D. W. and WATTS, D. G. Estimating the transition between two intersecting straight lines 525

BOX, M. J. An experimental design criterion for precise estimation of a subset of the parameters in a nonlinear model 149

BRADLEY, R. A. (*See* DAVIDSON, R. R.)

CHEN, C. W. On some problems in canonical correlation analysis 399

COX, D. R. A note on polynomial response functions for mixtures 155

COX, D. R. and SNELL, E. J. On test statistics calculated from residuals . . 589

D'AGOSTINO, R. B. An omnibus test of normality for moderate and large size samples 341

D'AGOSTINO, R. B. and TIETJEN, G. L. Simulation probability points of b_2 for small samples 669

DAHIYA, R. C. On the Pearson chi-squared goodness-of-fit test statistic . . 685

DARROCH, J. N. A definition of independence for bounded-sum, nonnegative, integer-valued variables 357

DAVIDSON, R. R. and BRADLEY, R. A. A regression relationship for multivariate paired comparisons 555

DAVIS, A. W. Percentile approximations for a class of likelihood ratio criteria . 349

DE CANI, J. S. On the number of replications of a paired comparison 169

DICAIRE, G. (*See* MAAG, U. R.)

DRAPER, N. R., GUTTMAN, I. and KANEMASU, H. The distribution of certain regression statistics 295

DURBIN, J. and WATSON, G. S. Testing for serial correlation in least squares regression. III 1

EFRON, B. Forcing a sequential experiment to be balanced 403

FINKELSTEIN, J. M. and SCHAFER, R. E. Improved goodness-of-fit tests . . 641

FISHER, L. and VAN NESS, J. W. Admissible clustering procedures 91

FLEHINGER, B. J. and LOUIS, T. A. Sequential treatment allocation in clinical trials 419

GABRIEL, K. R. The biplot graphic display of matrices with application to principal component analysis 453

GASKINS, R. A. (*See* GOOD, I. J.)

PAGE

GEORGE, S. L. Evaluation of empirical Bayes estimators for small numbers of past samples 244

GOOD, I. J. and GASKINS, R. A. Nonparametric roughness penalties for probability densities 255

GRIFFIN, B. S. and KRUTCHKOFF, R. G. Optimal linear estimators: an empirical Bayes version with application to the binomial distribution 195

GUTTMAN, I. A remark on the optimal regression designs with previous observations of Covey-Crump and Silvey 683

GUTTMAN, I. (*See* DRAPER, N. R.)

HAHN, G. J. and HENDRICKSON, R. W. A table of percentage points of the distribution of the largest absolute value of k Student t variates and its applications . 323

HAIGH, J. A neat way to prove asymptotic normality 677

HANNAN, E. J. and THOMSON, P. J. The estimation of coherence and group delay 469

HASSANEIN, K. M. Percentile estimators for the parameters of the Weibull distribution 673

HAWKES, A. G. Spectra of some self-exciting and mutually exciting point processes 83

HENDRICKSON, R. W. (*See* HAHN, G. J.)

HINKLEY, D. V. Inference about the change-point from cumulative sum tests . 509

HOLLANDER, M. A nonparametric test for bivariate symmetry 203

HOLST, L. A note on finding the size of a finite population 228

HOWE, R. B. (*See* MYERS, R. H.)

HUTCHISON, M. C. A Monte Carlo comparison of some ratio estimators . . . 313

JAMES, A. T. and WILKINSON, G. N. Factorization of the residual operator and canonical decomposition of nonorthogonal factors in the analysis of variance . 279

JOHN, S. Some optimal multivariate tests 123

JOHNSON, N. L. and KITCHEN, J. O. Some notes on tables to facilitate fitting S_B curves 223

JOHNSON, N. L. and KITCHEN, J. O. Tables to facilitate fitting S_B curves II: both terminals known 657

KANEMASU, H. (*See* DRAPER, N. R.)

KENDALL, M. G. Studies in the History of Probability and Statistics. XXVI. The work of Ernst Abbe 369

KETTENRING, J. R. Canonical analysis of several sets of variables 433

KITCHEN, J. O. (*See* JOHNSON, N. L.)

KITCHEN, J. O. (*See* JOHNSON, N. L.)

KRUTCHKOFF, R. G. (*See* GRIFFIN, B. S.)

LEE, Y.-S. Asymptotic formulae for the distribution of a multivariate test statistic: power comparisons of certain multivariate tests 647

LEPAGE, Y. A combination of Wilcoxon's and Ansari-Bradley's statistics . . 213

LOUIS, T. A. (*See* FLEHINGER, B. J.)

LOUTER, A. S. (*See* ABRAHAMSE, A. P. J.)

MAAG, U. R. and DICAIRE, G. On Kolmogorov–Smirnov type one-sample statistics 653

MARDIA, K. V. The effect of nonnormality on some multivariate tests and robustness to nonnormality in the linear model 105

MYERS, R. H. and HOWE, R. B. On alternative approximate F tests for hypotheses involving variance components 393

Newbold, P. Optimum allocation in stratified two-phase sampling for proportions . . . 81
Paloheimo, J. E. On a theory of search 61
